OUR COMPANY

We exist to create and deliver innovative and sustainable solutions for our clients.

Hoxana Consulting has substantial experience in a broad spectrum of infrastructure and management delivery in a multi-disciplinary consulting environment. With a collective experience of more than 14 years, our pursuit of excellence is driven by delivering viable and sustainable projects using our combined knowledge, skills, and expertise. Our unique approach is centered around engineering business solutions for our public and private sector clients.

■ Vision

Hoxana Consulting Engineers aims to be one of the leading engineering firm by 2030 that implies its projects life cycle capabilities to optimize clients fixed capital investment by focusing its expertise and capacity on delivering sustainable and fit for purpose projects.

■ Mission

Hoxana Consulting Engineers strives to always maintain sound business relations and high ethical standards all the while also providing sustainable and innovative solutions to the built environment. Professional and timely application of target specific objectives helps Hoxana Consulting Engineers to consistently deliver to the satisfaction of our clientele.

■ Philosophy

Hoxana consulting Engineers believes in integrating the various development disciplines in a dynamic pro-active and hands-on way. Our primary objective is to fulfil client's needs in an innovative, effective and holistic approach. All possibilities are explored with a consistent level of scrutiny prior to making any decisions that would affect our clients.

LEADERSHIP

Livingstone Mashele | Chief Executive Officer

Livingstone Mashele is the Executive Director and co-founder of Hoxana Consulting. He holds Masters in Business Administration from Henley Business School (University of Reading), a BTech in Civil Engineering (Transportation) and a Graduate Diploma in Civil Engineering from Vaal University of Technology. He is registered with ECSA as Professional Engineering Technologist. He is well experienced and gained valuable experience over 10 years in multi-disciplinary projects with his responsibilities ranging from project marketing, project management, client relations, infrastructure design, documentation, tender evaluation, and site monitoring.

Zenzile Shibambu | Non-executive Director

Zenzile Shibambu holds Masters in Business Administration from the University of the Free State. She is currently studying towards her Ph.D. in Business Administration (DBA) at the University of the Free State. She also holds Executive Management Programme (EMP) Certificate from the University of Limpopo and Executive Program, Investment Appraisal and Risk Analysis from Queen's University (USA). She served in management positions for more than 15 years from various organizations amongst them the National Prosecuting Authority (NPA), Department of Agriculture, Local Government and Housing, and Department of Health. She is now the Sector Specialist Musina-Makhado Special Economic Zone (SEZ) for Limpopo Economic Development Agency (LEDA).

Thabani Vundla | Chief Operating Officer

Thabani Vundla has been the Technical Director of Hoxana Consulting Engineers for 7 years with a passion for continued development and innovation in the built environment. As an astute Technologist holding a B-Tech in Civil Engineering (Structural Engineering), he is self-motivated and industry driven. His core experience revolves around the design of a range of civil works in Roads, Water, and Sanitation as well as minor structures to name a few.

OUR VALUES

Customer Oriented Approach

A high quality of life and comfort for our customers is the main purpose of our activity. At the heart of everything we do, there is a desire to satisfy our customer's needs. In developing our projects, we aim to anticipate and meet market expectations.

Maximum profit is not the company's ultimate goal, but with financial stability, we can realise our projects efficiently and on time.

OUR VALUES

**■ Involvement and Initiative**

Hoxana Consulting brings people together to achieve common goals and each employee shares in the set goals and takes ownership. We create a positive environment for our employees to realize their full potential so that they reach maximum personal reign and thus ensure the success of the company.

■ Respect

Hoxana Consulting appreciates the dynamic environment it operates in by acknowledging individual differences of both the staff and its clients. Operating in line with this belief we treat all with, trust dignity and respect at all times without any prejudice, bias or pre-judgement.

■ Honesty and Responsibility

Each one of us at Hoxana Consulting Engineers strives daily to be open, honest & ethically with our customers and with each other. Hoxana Consulting Engineers actively targets to complete its tasks and does not put its financial interest above the interest of the customer.

OUR SERVICES

We provide the full range of Premium Engineering Services

Hoxana Consulting Engineers undertakes to provide clients with services in line with our ISO compliant Quality Management System. This forms the basis on which all projects will be undertaken, and this is established in due accordance with the legislated requirements.

OUR SERVICES

Water and Sanitation

Hoxana Consulting Engineers believes that access to a secure, safe, and sufficient source of freshwater is fundamental of all humanity and a primary priority of service delivery to the community. We provide clients with unique comprehensive solutions based on our intimate understanding of the water requirements of government, local authorities, mines, and high demand industries.

Roads and Transportation

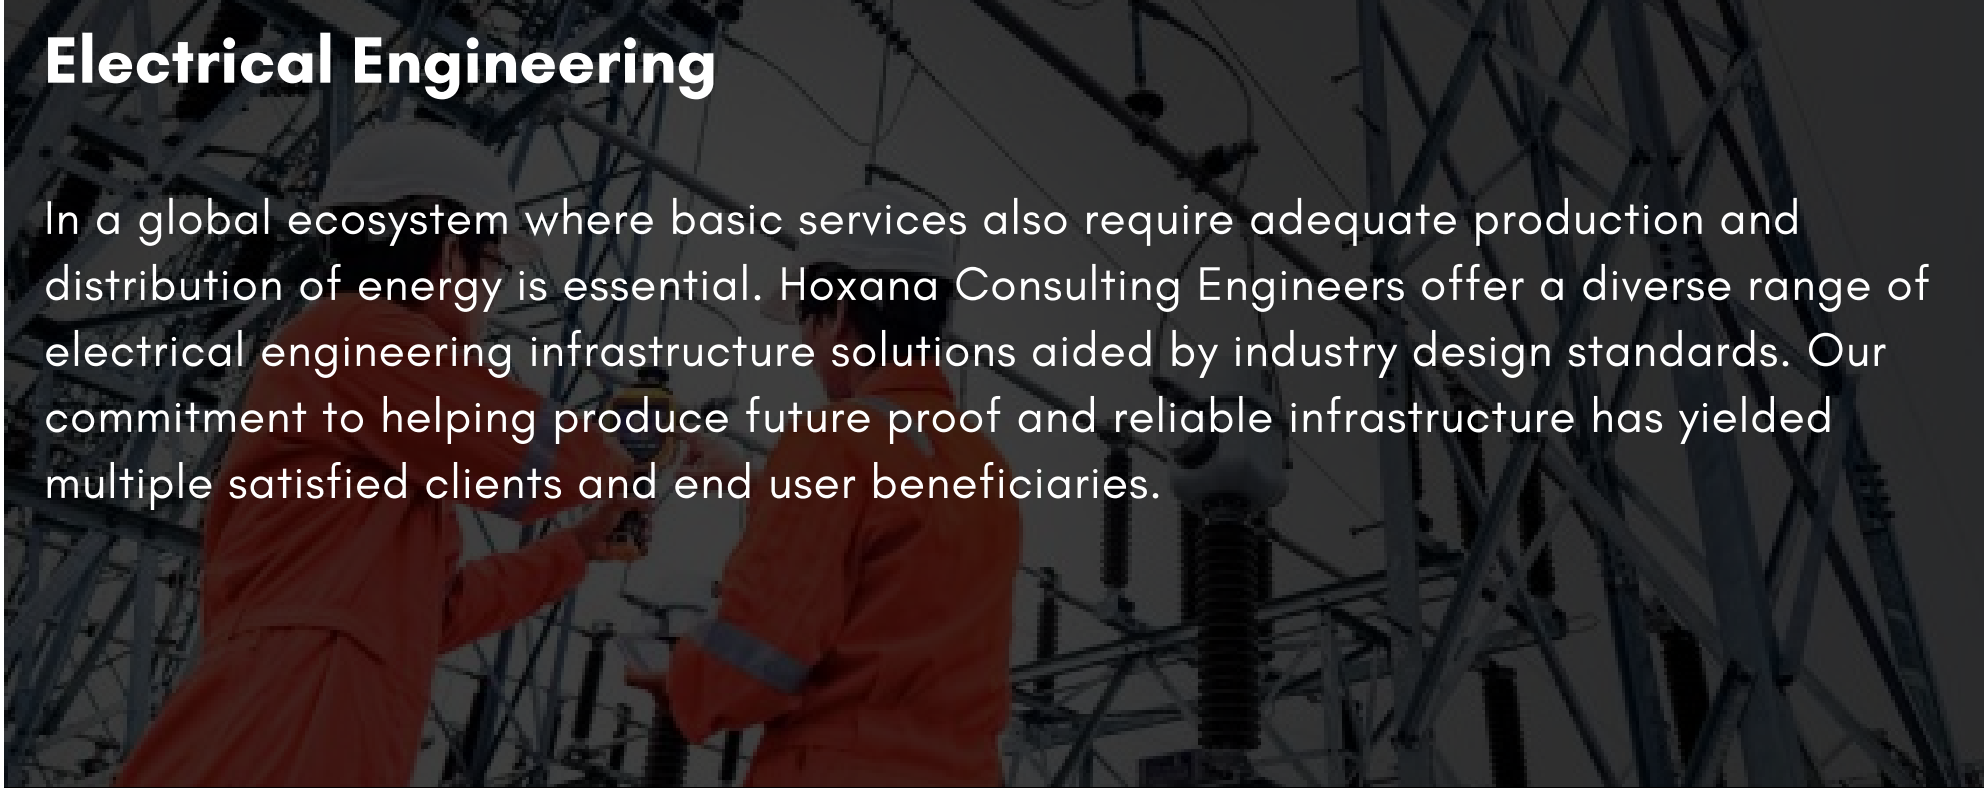

At Hoxana Consulting Engineers we have broad experience ranging from design, documentation, and contract administration of roadworks projects all the way through to the implementation and commissioning of roads and other transportation systems e.g. Bus Routes. Our experience helps us to develop solutions that deliver optimum efficiency and long-term design integrity and site rehabilitation.

OUR SERVICES

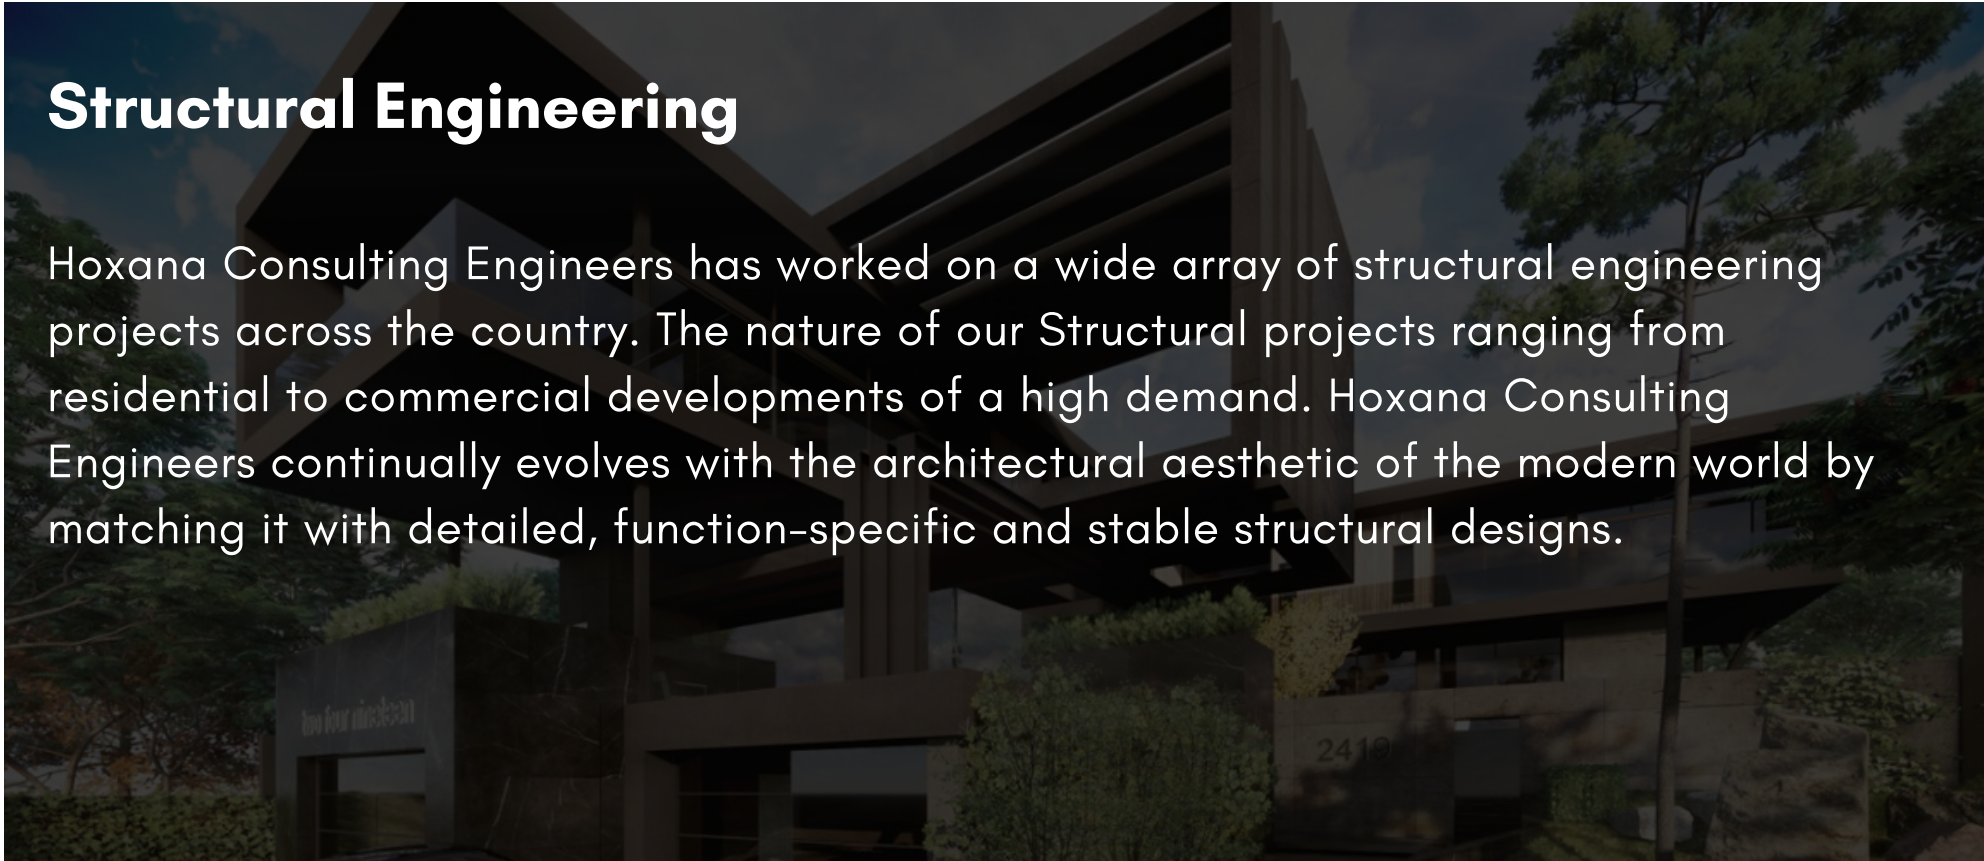

We provide the full range of Premium **Engineering Services**

Electrical Engineering

In a global ecosystem where basic services also require adequate production and distribution of energy is essential. Hoxana Consulting Engineers offer a diverse range of electrical engineering infrastructure solutions aided by industry design standards. Our commitment to helping produce future proof and reliable infrastructure has yielded multiple satisfied clients and end user beneficiaries.

Structural Engineering

Hoxana Consulting Engineers has worked on a wide array of structural engineering projects across the country. The nature of our Structural projects ranging from residential to commercial developments of a high demand. Hoxana Consulting Engineers continually evolves with the architectural aesthetic of the modern world by matching it with detailed, function-specific and stable structural designs.
